Projects

Note-App / HTML, CSS, JavaScript || [Link](#)

- Designed and implemented a user-friendly web-based notes application to facilitate easy creation, organization, and management of personal notes and tasks.
- Leveraged HTML for structuring the application, CSS for styling and layout customization, and JavaScript for interactivity and functionality.

Portfolio / Html, CSS, JavaScript, Bootstrap || [Link](#)

- Leveraged HTML5 for semantic structuring, CSS3 for styling and layout, and JavaScript for interactivity and dynamic content.
- Implemented modern design principles and user experience (UX) techniques to ensure easy navigation and engagement.
- Developed a responsive and visually appealing portfolio website to showcase my skills, projects, and professional experience.

Weather Prediction Website || HTML, CSS, Javascript // [Link](#)

- Developed a responsive and user-friendly weather prediction website using HTML, CSS, JavaScript, and Bootstrap.
- The project showcases proficiency in front-end technologies, providing real-time weather information for specified cities with an emphasis on a clean and intuitive design.
